

SAILUN ATREZZO ZSR

ULTRA HIGH PERFORMANCE TIRE PNEU ULTRA HAUTE PERFORMANCE

The new generation Atrezzo ZSR is engineered to deliver precise wet and dry handling characteristics. An asymmetrical design and enhanced rubber compound rises to the challenge and provides exceptional performance on the street or on the highway. Asymmetrical tread design for uncompromising performance. Wide shoulder tread block with high angle sipes for high-speed cornering performance. Variable pitch tread design provides a smooth, quiet ride. Advance tread compound delivers superior cornering and exceptional handling. Deep, circumferential grooves and hundreds of biting edges deliver excellent wet and dry traction.

La prochaine génération de pneus Atrezzo ZSR est conçue pour fournir des caractéristiques de maniabilité précise sur chaussées mouillées et sèches. Le design asymétrique de sa bande de roulement et un composé de caoutchouc amélioré relèvent le défi et procurent une performance exceptionnelle en ville et sur autoroute. Design asymétrique pour une performance sans compromis. La séquence aléatoire des blocs de sa bande de roulement favorise un roulement doux et silencieux. Les larges blocs à l'épaulement, munis de lamelles à angle prononcé, favorisent la performance à grande vitesse dans les courbes. Le dessin de la bande de roulement est caractérisé par une nervure rigide centrale, pour une stabilité et une sensation de la route supérieure. Les rainures très larges favorisent une performance accrue sur chaussées mouillées et réduisent l'aquaplanage.

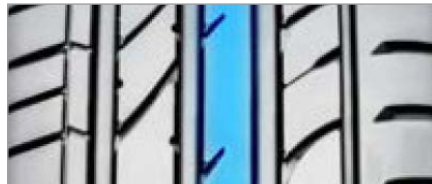

EXCEPTIONAL HANDLING

Wide shoulder tread block with high angle sipes for high-speed cornering performance.

TENUE DE ROUTE EXCEPTIONNELLE

Les larges blocs à l'épaulement, munis de lamelles à angle prononcé, favorisent la performance à grande vitesse dans les courbes.

SOLID CENTER RIB

The tread design features a solid center rib for superior stability and road feel.

NERVURE RIGIDE CENTRALE

Le dessin de la bande de roulement est caractérisé par une nervure rigide centrale, pour une stabilité et une sensation de la route supérieure.

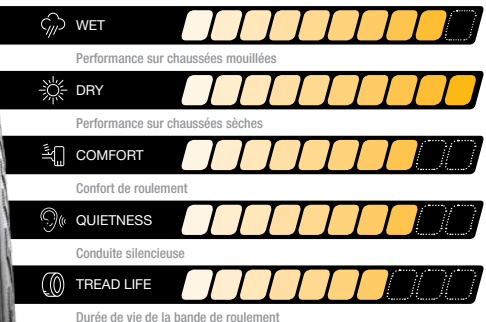

SUPERIOR TRACTION

Extra-wide grooves for improved wet performance and reduced hydroplaning.

TRACTION SUPÉRIEURE

Les rainures très larges favorisent une performance accrue sur chaussées mouillées et réduisent l'aquaplanage.
